

Hospital Fee for Day Surgery Phaco Cataract Operation

1. Royston Hospital is pleased to offer a set fee for the hospital charges for your Phaco cataract procedure performed by Dr Beaumont.
2. **Our set fee will be \$1,500.00 inc GST for a Local Anaesthetic, or \$1,750.00 for a General Anaesthetic (including GST).**
Please note the set fee is based on a discounted procedure subject to the following criteria:
 - it will only apply if you are admitted as a day patient through our Day Surgery Unit,
 - your surgery is uncomplicated.
3. In the event that you need or wish to be admitted to a bed in the hospital ward or in the event of any complications **additional charges will be applied.**
4. In addition to this hospital fee, you will be charged separately by the surgeon and the anaesthetist. The surgeon will also charge for the lens that is inserted.
5. Royston's Terms of Trade are printed in the Royston Hospital Patient Information Booklet and are displayed at our admissions area. In return for offering this fixed fee, we require pre-payment for your procedure. We do accept EFTPOS and most credit cards.
6. Regrettably some health insurers may not reimburse claims for surgery undertaken on a 'fixed fee' basis. If you have insurance please check with your insurer to ascertain what reimbursement you may be entitled to. We are happy to assist you.
7. Finally, if you have any queries regarding the hospital's charges, please contact our accounts staff on 06 873 1111, extension 6074.
